

SuperPaint – with Air Purifying Technology

Help improve indoor air quality for your customers with the trusted performance of SuperPaint® with Air Purifying Technology*. It contributes to better indoor air quality by reducing VOC levels from potential sources like carpet, cabinets and fabrics. It also helps rooms stay fresher, longer, with odor eliminating technology that helps reduce common indoor odors. Available in a wide variety of colors, including 540 beautiful hues from the Living Well™ collection.

*The length of time SuperPaint® with Air Purifying Technology Interior Acrylic Latex actively reduces odors and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface area.
