

**Verizon Promotions – For a Limited Time Only**

**Business customers have 2 BICs available when adding or porting in a new 4G LTE smartphone line:**

- \$50 when activated on 2-year contract
- \$100 when activated on Device Payment

*BIC Applies to 4G LTE smartphone orders placed 1/1/19 - 3/31/19 (includes backorders placed 1/1 - 3/31, regardless of ship date).*

Purchased equipment must be activated on the MDN listed on the device order.

The \$34.99+ price plan threshold is based on the monthly charge for account level plans (ex: 3 GB for \$45) not the line access charge (\$20, \$35 or \$40 for smartphones).

<b>Device</b>	<b>Wireless Business Group (WBG*)</b>
