

BuildATech[®] Virtual Classroom

Three weeks of instructor-led online technician training.

Travel logistics proving difficult?

Let us bring our new virtual classroom to you. Get the best of both worlds – content from our flagship BuildATech program virtually delivered to you onsite, with a live instructor. Each daily session is two hours of live interactive instruction, assisting your technicians to grasp and retain the new content.

Virtual Classroom Benefits

- Real-time, live instruction and classroom participation, without travel concerns.
- Live instructor-led classroom training, from the safety and security of your dealership, or the tech's home.
- Two hours daily, **three days per week** of focused, in-depth instruction and discussion, for **three** weeks.
- Participants level up their Maintenance or Service technician skills, while remaining available for daily service calls.
- Each morning's session begins with a discussion of issues or scenarios the participants encountered in the previous day's service calls, bringing real-world experience into the virtual classroom.
